

TANK ACCESSORIES

CONTROL THERMOSTAT

Control thermostat

The control thermostat, incl. sensor pocket with 1/2" male thread, is used for floating switching of an electrical device depending on the tank temperature.

Control range 0 – 90 °C, 1 change-over contact

Specifications

Type	BT 100	BT 210
Item no.	1610320	1610318
Penetration depth of the sensor pocket from the thread	100 mm	180 mm
Sensor pocket material	Copper	
Working range	0 – 120 °C	
Control range	0 – 90 °C	
Switching difference	6 ± 2 K	
Switching contact	1 2-way contact	
Contact load	16(4) A – 250 V ~ / 6(1) A – 400 V ~	
Earth connection	Screw terminal	
Maximum temperature of the thermostat head	85 °C	
Thread	Male 1/2"	
Spanner size	22	
Protection class	IP 43 (horizontal or vertical with cable exiting downwards)
